

Send Claims & Receive Remits

Simply **connect**. VisionShare® makes it easy.

“As our business grew and our claim files became larger, (they) became a daily frustration.

We had transmissions dropping in the middle of a batch. The uncertainty of whether it would be picked up and continued in the right place was a nightmare. We were literally dialing up and using outdated technology. Since we have connected with *VisionShare* our process works extremely well. We are confident our files are getting through timely and securely and we are recognizing cost savings as well.”

Secure
CMS-approved solution

Fast
Use your existing high-speed
Internet

Reliable
Decrease disconnects

Simply connect.

With *VisionShare*®, you can access your Medicare Administrative Contractor (MAC) easily for a variety of transactions including sending claims and receiving remits.¹

Whether you're a large healthcare facility with hundreds of Medicare Part B providers or a sole-practitioner's office, *VisionShare* has a solution to connect you to Medicare quickly.

And using *VisionShare* technology means you can:

- Maximize your staff's time and energy by using a more efficient technology
- Replace unreliable technologies by eliminating a dial-up connection
- Reduce connectivity costs with low flat-rate pricing vs. metered rates
- Improve your Medicare-related cash flow with timely upload and downloads and access to remittance reports

Simply helpful.

Using *VisionShare*, you can:

- Send claims (837)
- Receive remits (835)
- Receive claim confirmations (997)

Simply reliable.

Using your high-speed Internet means no more IVR, modem, dropped calls or slow connections. Instead, you'll be able to simply connect directly to expedite your transactions.

Connections are CMS approved and HIPAA compliant so you can rest-assured knowing that your access to Medicare is secure. .

About VisionShare

VisionShare is a leading provider of high-speed, low-cost data communication services for healthcare organizations. The company's Secure Exchange Software is setting new standards for secure healthcare information exchange, using advanced encryption and authentication technologies that exceed regulatory requirements for Protected Health Information. *VisionShare* has cost-effective solutions for facilities of all sizes that enable safe, high-speed connections to multiple payers over the Internet.

Simply options.

VisionShare also provides additional services including access to the Professional Provider Telecommunications Network (PPTN) for Part B providers. PPTN provides you with real-time access to the Medicare mainframe and accesses data from the Common Working File. You can use PPTN to check:

- Real-time Medicare beneficiary eligibility
- Real-time claim status
- Diagnosis and procedure codes
- Accounts receivable detail
- Fee schedules
- Claims volume summary and more

Likewise, you can also check Medicare eligibility (270/271) from the HIPAA Eligibility Transaction System (HETS) through *VisionShare*.

Simply more.

VisionShare also offers connections to Medicare for Part A, home health and hospice and Durable Medical Equipment contractors. Some commercial connections are also available based on your state. Please reference the corresponding section of our Web site for specific information.

Simply save.

You have multiple options when it comes to working with *VisionShare*. We provide our services across several platforms so that your organization's needs can be accommodated whether you have one user or hundreds.

We're confident our cost for services are competitive and will likely reduce your overall connectivity compared to the cost and time used when using older technologies.

Contact us at 888.895.2649 how *VisionShare* can help you.

¹ *Service availability is based on your state.
