

# Professional Provider Telecommunications Network

Simply **connect**. VisionShare® makes it easy.

“It’s not cost effective for us to go through dial-up due to the time it takes to connect and the need to resend files as a result of dropped connections. With *VisionShare*, it is easier to get remittance and other reports back with fewer points of failure. And, *VisionShare* is easy to work with!”

Marvin Drake  
Vice President, Operations  
Health-e-Web

**Secure**  
CMS-approved solution

**Fast**  
Use your existing high-speed  
Internet

**Reliable**  
Decrease disconnects

## Simply connect.

Medicare Part B providers can now access the Professional Provider Telecommunication Network (PPTN) through *VisionShare*.\* PPTN is a view into the Common Working File of CMS to view claim status, beneficiary eligibility and more.

Whether you’re a large healthcare facility with hundreds of Medicare Part B providers or a sole-practitioner’s office, *VisionShare* has a solution to connect you to Medicare quickly and easily.

Using *VisionShare* technology means you can:

- Maximize your staff’s time and energy by using a more efficient technology
- Replace unreliable technologies by eliminating a dial-up connection
- Reduce connectivity costs with flat-rates instead of metered rates
- Improve your Medicare-related cash flow with timely upload and downloads and access to remittance reports

## Simply helpful.

PPTN provides you with real-time access to the Medicare mainframe and data from the Common Working File. You can use PPTN to check:

- Real-time Medicare beneficiary eligibility
- Real-time claim status including paid, denied, pending claims for electronically submitted claims, paper claims, assigned claims and non-assigned claims
- Diagnosis codes
- Procedure codes
- Accounts receivable detail
- Ambulance and clinical lab fee schedules
- Claims volume summary and more

## About VisionShare

*VisionShare* is a leading provider of high-speed, low-cost data communication services for healthcare organizations. The company's Secure Exchange Software is setting new standards for secure healthcare information exchange, using advanced encryption and authentication technologies that exceed regulatory requirements for Protected Health Information. *VisionShare* has cost-effective solutions for facilities of all sizes that enable safe, high-speed connections to multiple payers over the Internet.

## Simply reliable.

Using your high-speed Internet means no more modem, IVR, dropped calls or slow connections. Instead, you'll be able to simply connect directly to PPTN to expedite your transactions online.

*VisionShare* connectivity is CMS approved and HIPAA compliant so you can rest-assured knowing that your access to Medicare is secure.

## Simply options.

*VisionShare* provides access to Medicare information and transactions in addition to PPTN. Providers can also:

- Check Medicare eligibility (270/271) from the HIPAA Eligibility Transaction System (HETS)
- Send claims (837) and receive remits (835)
- Receive claim confirmations (997)

## Simply more.

*VisionShare* also offers connections to Medicare for Part A, home health and hospice, and Durable Medical Equipment. Some commercial connections are also available based on your state. Please reference the corresponding section of our Web site for specific information.

## Simply save.

You have multiple options when it comes to working with *VisionShare*. We provide our services across several platforms so that your organization's needs are accommodated whether you have one user or hundreds.

We're confident that our cost for services are competitive and will likely reduce your overall connectivity cost and time used when compared to older technologies.

Contact us at 888-895-2649 to see how *VisionShare* can help you.

\*Service availability is based on your state.
