

Direct Data Entry (DDE)

Simply **connect**. VisionShare® makes it easy.

“The dial-up/leased lines option was very expensive. The leased lines cost too much, dial-up was slow and would have meant hourly charges and other fees. It wasn’t really acceptable.”

“VisionShare is faster and it gives us unlimited usage for one flat rate...”

*- Paula Holt
Systems Coordinator
Central Washington Hospital*

Secure

CMS-approved solution

Fast

Use your existing high-speed Internet

Reliable

Decrease disconnects

No surprises

One low, flat fee

Low-cost, high-speed Internet connectivity

VisionShare enables you to use your existing high-speed Internet connection to access the Medicare Fiscal Intermediary Standard System (FISS) for Direct Data Entry (DDE). Our innovative and cost-effective secure connectivity eliminates the need for problematic dial-up or costly leased-line connections.

Enjoy real-time connectivity to the FISS for:

- Medicare eligibility verification
- Claim status
- Pending RTP claims
- Keying in claims

Scalable solutions. Small- to mid-sized facilities benefit from our Web-based portal solution, while large facilities choose our enterprise-wide, server-based software.

Improve efficiency. Spend less time waiting; a high-speed connection reduces screen refresh and response times for all mainframe inquiries.

Simple to use. Fast access to the FISS login screen. Eliminate the need to input and manage multiple logins.

Easier to multitask. VisionShare will not commandeer your workstation, so you retain full access to your other applications. While connected to the FISS you can enjoy full ability to print, send e-mails, access your A/R software and more.

No surprises. Pay just one low, flat rate — no metered charges, no monthly invoicing fee, no per connection fee.

Connect with confidence. *VisionShare* solutions are CMS approved, CAQH CORE certified and HIPAA compliant. We offer nationwide access to all Medicare services, including Medicare Enterprise Data Centers, Medicare Fiscal Intermediaries, Carriers and Medicare Administrative Contractors (MACs).

Go beyond Part A. We can also provide you with connectivity to other lines of business such as Part B, Regional Home Health & Hospice, Eligibility, Durable Medical Equipment, Railroad, Section 1011 and more.

At *VisionShare*, **we know Medicare.** When you call *VisionShare* sales or customer support, the phone will be answered by knowledgeable professionals who will take the time to answer your questions and help you understand your options.

To learn more about *VisionShare* and why thousands of facilities have chosen us as their Medicare connectivity vendor, contact us or visit our Web site today!

About VisionShare

VisionShare is a leading provider of high-speed, low-cost data communication services for healthcare organizations.
