

Advantages for Your Business

As provider and hospital reimbursements decline, your customers look to you for more efficient and less costly ways to obtain the data they need to perform their business duties.

ABILITY now makes it easier for you to access Medicare and all-payer eligibility data that until now has been difficult and expensive to obtain. **ABILITY | ACCESS** is a REST-based API toolkit with a single platform that makes obtaining and writing data within the CMS Shared System simple, and also addresses ongoing CMS changes (such as the transition of CWF eligibility to HETS), and provides real-time eligibility for Medicare and commercial payers.

With years of experience as a Network Service Vendor, certified by EHNAC and CORE, ABILITY understands the challenges healthcare IT vendors are facing in a constantly changing healthcare environment. As your business partner, **ABILITY is ready to help your organization get the data you need to serve your customers in a more efficient and economical way.**

Count on Our Support

Because we know your customers count on you to keep their businesses running smoothly, you can count on us. ABILITY provides Strategic Partners with a dedicated team of advanced technical support representatives who understand the unique needs of IT healthcare business. In addition, ABILITY has dedicated internal staff who work closely with Medicare to understand and proactively address industry changes. We quickly troubleshoot and resolve any Medicare EDI issues as they arise so you don't have to.

Learn more

Contact us at [888.271.8222](tel:888.271.8222) or partners@abilitynetwork.com to learn more about the ABILITY Strategic Partner Program.

- **We've built it for you – a development toolkit and connectivity are bundled** into the API, allowing you to focus development resources on other tasks and shorten lead times.
- **Enhanced CMS connectivity**, thanks to a single centralized platform.
- **A smoothly managed CWF eligibility sunset and transition** to HETS with a centralized API leveraging familiar XML.
- **Eligibility verification for Medicare** and most commercial payers.
- **Improve time-to-market and time-to-revenue** with a User Acceptance Test (UAT) environment
- **Greater control of budget** – the toolkit bundles connectivity and development costs into one fixed price providing a predictable budget expense for EDI connectivity and ongoing support and maintenance costs.
- **Highest level of reliability and security** – Fully accredited by the Electronic Healthcare Network Accreditation Commission (EHNAC); approved Network Service Vendor; CORE certified; and approved Health Information Handler (HIH). ABILITY is proud of our record securing protected healthcare information and meeting the highest standards of support and availability.
- **Low cost, huge value** – As an ABILITY Strategic Partner, you'll enjoy the lowest integration costs in the industry, backed by a customer support team dedicated to your organization.
