

Benefits for Your Organization

- **Stop wondering and worrying** – ABILITY | EASE sends you automated alerts for ADRs that are due within 30 days
- **Eliminate delayed and lost revenue** – Automate time-consuming processes: checking Medicare eligibility and claim status, fixing rejected claims, and more. Reduce the number of AR days outstanding to meet your departmental goals
- **Accelerate your reimbursement process and save staff time** – Increase revenue by getting rid of slow, manual processes – do more and get more
- **Gain control over your revenue stream** – Daily reports give you the full picture, from cash flow projections to Medicare claims and eligibility issues to be resolved
- **Generate A/R reports across multiple NPIs/business units** – Get a high-level summary on all claims statuses or drill down to itemized claim level
- **Ready for ICD-10 transition** – As of October 1, 2015, you can easily make ICD-10 code changes for any RTP or rejected claim on the ABILITY | EASE UB-04 form

ABILITY | EASE® automates time-consuming Medicare billing management for hospice, streamlining eligibility and claim processing activities, which means you get paid more and faster. With ABILITY | EASE, you receive advance alerts for receivables at risk, have easy eligibility look-ups, and benefit from a simple automated process to correct complex and multi-step claims.

Hospice administrative staff historically spent countless hours checking Medicare eligibility, fixing rejected or T status claims, checking claim status in DDE and following up on resubmitted claims to ensure proper payment. Now there is one software product that truly revolutionizes the industry by automating these time-consuming processes. Regardless of your size—whether you have an average daily census of four or 400, ABILITY | EASE can make your life easier.
