ABILITY Network Expands its Minneapolis Headquarters

Adds 17,000 square feet to its Butler Square offices to support rapid growth

MINNEAPOLIS (March 19, 2018) – **ABILITY® Network**, has signed an agreement to expand its Minneapolis headquarters, adding 17,000 square feet to its existing 50,000 square foot Butler Square offices. The expansion will be used to support the company's growth by providing workspaces for additional employees and it will create new dedicated areas for employee collaboration and engagement.

"Our vision is based on building a company where employees can do great work," said Mark A. Pulido, chairman and CEO of ABILITY Network. "Our office environment and the culture we create within it helps ensure that we have the space and amenities to support our company's physical growth and continue to drive a culture of delivering extraordinary results together."

The expansion will accommodate approximately 100 new workspaces and create an Employee HUB, which will be a large, internal collaboration and engagement space. The Employee HUB will include upgraded technology, coffee bar, healthy snack dispensers, a game area, and customizable collaborative spaces, creating a place where employees can meet, take a break or just connect. Construction begins this month with completion expected later this year.

Earlier this month, ABILITY entered into a definitive agreement to be acquired by Inovalon, a leading healthcare technology company. ABILITY was recognized in 2017 by the Minneapolis-St. Paul Business Journal as one of the fastest growing privately-held companies based in the Twin Cities, and was one of only four companies with over \$100 million in revenue named to the list. ABILITY was also named a winner at the 2017 Minnesota Tekne Awards in the Software category (established company) for its ABILITY | EASE All-Payer application.
