**About ABILITY**

ABILITY® Network, an Inovalon Company, is a leading cloud-based, SaaS information technology company helping providers and payers simplify the administrative and clinical complexities of healthcare through innovative applications and data analytics. The combination of MyABILITY and the Inovalon ONE™ Platform creates a vertically integrated cloud-based platform empowering the achievement of real-time value-based care from payers, manufacturers, and diagnostics all the way to the patient's point of care.

## Sandata and ABILITY Network Expand Partnership to Streamline the Management of Client Payments

**Port Washington, NY and Minneapolis, MN** – (December 4, 2018) Sandata Technologies, LLC, a leading provider of technology for State Medicaid agencies, Managed Care Organizations (MCOs), and Homecare Agencies, and **ABILITY Network**, an Inovalon (Nasdaq: INOV) company providing advanced, cloud-based platforms empowering data-driven healthcare, are expanding their strategic partnership to enable Sandata's customers to more quickly and efficiently pay for home care services.

Sandata and ABILITY have partnered to provide ABILITY's SECUREPAY™ application into their Agency Management solutions, enabling data to seamlessly pass between the two systems. ABILITY SECUREPAY benefits both provider agencies and their clients. The service offers flexible and convenient payment options and 24/7 access to its robust payment portal. With this expansion, customer provider agencies will now be able to manage all payments in one place, leading to improved cash flow via secure point-of-service payment processing and automation of schedule of payments. Staff can now spend less time on manual administrative tasks and gain real-time access to payment data.

David Birnbaum, executive vice president at Sandata, commented, "We are thrilled with the enhanced payment automation and options that ABILITY SECUREPAY brings to our customers, and further building on our longstanding partnership with ABILITY."

"Rising healthcare costs and an increasing portion of patient responsibility means that patients are funding a higher proportion of their medical expenses," said Bud Meadows, executive vice president and chief revenue officer of ABILITY. "Leveraging ABILITY's leading technology capabilities to meet the growing payment needs of Sandata's customers, we can help improve the patient payment process and simplify complexity."

###

### **About Sandata Technologies, LLC**

Sandata Technologies is a leading U.S. provider of home care solutions that enable government agencies, Managed Care Organizations, and home care providers to manage and optimize the delivery of services. Sandata's suite of products includes Sandata Electronic Visit Verification™ (EVV™), a market leading EVV solution; Santrax® Agency Management and Santrax® Payer Management, web-based software solutions with features including a jurisdictional solution for states and other payers, and Santrax® Member Management, an ADA Section 508 compliant member portal for self-directed participants. Sandata has over 3,500 agency clients nationwide with its products supporting 1.8 million participants and nearly 400,000 EVV transactions on a daily basis.

### **About Inovalon**

Inovalon is a leading technology company providing cloud-based platforms empowering data-driven healthcare. Through the Inovalon ONE® Platform, Inovalon brings to the marketplace a national-scale capability to interconnect with the healthcare ecosystem, aggregate and analyze data in real-time, and empower the application of resulting insights to drive meaningful impact at the point of care. Leveraging its platform, unparalleled proprietary data sets, and industry-leading subject matter expertise, Inovalon enables better care, efficiency, and financial performance across the healthcare ecosystem. From health plans and provider organizations, to pharmaceutical, medical device, and diagnostics companies, Inovalon's unique achievement of value is delivered through the effective progression of "Turning Data into Insight, and Insight into Action®." Supporting thousands of clients, including 19 of the top 25 U.S. health plans and 22 of the top 25 global pharma companies, Inovalon's technology platforms and analytics are informed by data pertaining to more than 955,000 physicians, 499,000 clinical facilities, 261 million Americans, and 40 billion medical events.
