

Benefits for Your Organization

- **Faster, easier, more secure access** – leverage your existing high-speed internet connection to securely connect to Medicare Direct Data Entry (DDE)
- **Save time and increase revenue** – streamline your administrative and operational workflow for accelerated reimbursement
- **More informed budgeting** – pay just one low fixed rate. No metered charges – with convenient monthly or yearly invoicing
- **Unlimited users** – add as many users as your organization needs at no additional charge
- **The secure connections you need** – ABILITY applications are CMS-approved, CAQH CORE-certified and HIPAA-compliant. We offer nationwide access to all Medicare Enterprise Data Centers and Medicare Administrative Contractors (MACs).

ABILITY | IVANS NOW® enables you to use your existing high-speed internet connection to access the Medicare Fiscal Intermediary Standard System (FISS) for DDE.

We can help with secure, online connections for Part A and Part B providers. If you need connectivity to DDE through the Professional Provider Telecommunication Network (PPTN), Regional Home Health and Hospice Intermediary (RHHI), or Claim Status Inquiry (CSI), we have you covered.

Experience real-time connectivity to the FISS for:

- Checking claim status
- Appending RTP claims
- Keying in claims

Product Features

- **Scalable** – no matter the size of your organization, our web-based tool can accommodate your needs
- **One click to FISS** – Fast access to the FISS login screen
- **TN3270 emulator is included**, optimized for FISS – no need to buy your own!

- **Screen print queue** – no more manual sorting; a queue holds your FISS 3270 screen prints until you're ready to print
- **Easy implementation, with minimal IT involvement** – ABILITY web-based services are compatible with current versions of industry-leading browsers.
