

## Benefits to Your Organization

- **Stay on top of your star ratings** with access to the most current data available
- **Focus efforts to lower hospital readmissions** with automated predictive risk information
- **Prepare for value-based purchasing** – give your key referral sources a report on your readmission statistics as compared with national benchmarks
- **Drive faster process improvement** using data-driven suggestions
- **Reduce staff time spent validating OASIS forms** – automated alerts notify you of errors and inaccuracies
- **Decrease rejections** – improve the accuracy of PPS reimbursement
- **Gain insight into the details you need**, from monthly trends to condition-specific analyses to patient-level results

**ABILITY | OPTIMIZE Analytics** is your go-to resource for your agency's performance improvement needs. From organizational performance analysis to accurate validation for OASIS data, ABILITY has you covered.

ABILITY | OPTIMIZE Analytics gives you online access to the most accurate daily, comparative, patient-level and executive dashboard reporting available. You'll be able to identify opportunities for improving outcomes and star ratings, reducing readmissions, boosting referrals and increasing revenue. You will be able to focus on visit utilization through guided and directed analysis, benchmarking and detailed reporting.

You can also quickly validate the accuracy of your OASIS form using a function that analyzes up-to-date CMS requirements, clinical processes and best-practice documentation to alert you to errors and inaccuracies. You'll decrease OASIS form rejections from CMS, improve the accuracy of PPS reimbursement and avoid delays or denial of payments.
