

Benefits to Your Organization

- **Speed workflow** by verifying the accuracy of an OASIS form in a fraction of the time
- **Get reimbursed faster** through the application of CMS validations before you submit to Medicare
- **Increase accuracy** of resulting HIPPS code through elimination of incorrect OASIS coding and undercoding errors
- **Dedicate more time to patient care** and staff education
- **Reduce your risk of reporting inaccuracies** and medical review of your home health agency
- **Get proper credit for the services provided** by your agency as well as the resulting patient improvements

Now you can quickly and easily validate the accuracy of the Outcome and Assessment Information Set (OASIS) data set with **ABILITY | OPTIMIZE OASIS**. The analysis service uses up-to-date CMS requirements, clinical processes, and coding and outcome provisions with best practices to recommend accurate OASIS completion for home health agencies. Accessed through the user-friendly myABILITY portal, ABILITY | OPTIMIZE OASIS helps managers prioritize assessments by analyzing the assessment list by inconsistency type.

You can confidently perform quality assurance of assessments with guidance from ABILITY | OPTIMIZE OASIS to correct errors and inconsistencies. The service detects errors associated with ICD-10 coding and errors associated with plan-of-care inclusions. ABILITY | OPTIMIZE OASIS uses best practices to help your home health agency ensure that your OASIS data set reflects both accurate services rendered and patient status.

Product Features

- **Simple and intuitive user interface** allows home health agencies to upload OASIS files, quickly sort analyzed assessments by inconsistency type, and view analysis results on a patient-by-patient basis
- **Robust rules engine** analyzes assessments for CMS requirements, clinical processes, coding and outcome requirements, and best practices
- **Provides guidance** to correct errors and inconsistencies
- **Reduces quality assurance process** for OASIS form to seconds per patient

- **Patient assessment analysis results** can be viewed in browser or PDF format
- **Fully compliant with ICD-10**
- **Minimal system requirements** – Windows XP SP3 or higher, Internet Explorer 8, 9 or 10, along with a high-speed connection to the internet. For more detailed technical specifications, contact the ABILITY team at 888.895.2649 or info@abilitynetwork.com.

The myABILITY® Platform

Connect to all of your ABILITY services via myABILITY, a SaaS delivery offering within the Inovalon ONE® Platform that gives you on-demand access to everything you need. Whether you need quality analytics, eligibility and claims, revenue cycle management or workforce management services, ABILITY can help your clinical, financial, operational and administrative areas work more effectively and efficiently.
