Technology-driven care settings are now a must. Patients need accessible care they can trust, and providers need telehealth software that is easy-to-use, reliable and secure.

ABILITY Virtual Care delivers this and more. Our fully HIPAA-compliant application is ready to support all your scheduling, appointment reminder, visit hosting and follow-up needs. The application was created with simplicity and care quality in mind – making it easy to conduct pre- and post-appointment tasks, while keeping the patient experience at the heart of every function.

Our innovative tool takes care beyond the walls of your practice. Powered by an industry-leading data set and over 20 years of healthcare excellence, **ABILITY** Virtual Care is the application you can trust to best compete with other physicians and satisfy your patients.

ADVANTAGES FOR YOUR ORGANIZATION

Increase practice revenue
Create a new revenue stream and keep all telehealth-related tasks organized for smoother claims management.

Boost patient satisfaction
Create a stress-free experience for appointment setting and joining with a simple interface.

Improve staff efficiency
Bring all telehealth scheduling, reminder, hosting and messaging activities into a single easy-to-use platform.

Eliminate workflow silos
Enjoy interoperability with ABILITY eligibility, claims management and patient pay applications, to have key interrelated care functions in one place.

APPLICATION FEATURES

Appointment setting
Managing schedules is quick and straightforward with a simple user experience to create and adjust appointments.

Patient reminders
Text and email reminders confirm your time with a patient before each appointment.

Cloud-based high definition video
Visit with patients with up to 720p HD video.

Secure messaging between provider and patient
Communicate private appointment notes and reminders within the same system used to schedule and host visits.

HIPAA compliance
Keep patient information secure. This application is fully compliant with the Health Insurance Portability and Accountability Act (HIPAA).

Mobile applications
Access every virtual visit via any browser from a desktop, laptop, iOS or Android mobile device.

Workflow integration with ABILITY COMPLETE
Understand each patient's eligibility with just a few clicks. See the status and date of their most recent eligibility check, confirm any secondary payer(s) and verify patient information.

Patient profile
Give patients the opportunity to verify their information and make any necessary updates prior to their visit – no need to pick up the phone or send out blank forms. Doctors can then access this information with just a few clicks.

The **myABILITY** Platform

Connect to all of your ABILITY applications via myABILITY, an integrated, SaaS-based platform that provides you with access to applications you need to solve your most pressing administrative and clinical challenges. Whether you need RCM, clinical management or performance improvement support, ABILITY can help your financial, billing and overall operations work more effectively and efficiently.
