

ABILITY SMARTFORCE Staffing Insights enables your team to leverage your rich workforce data to drive safe, cost-effective staffing and scheduling decisions. This powerful analytics tool synthesizes large volumes of data based on your exact specifications and delivers the consolidated results in an easy-to-understand dashboard. With this new module paired with ABILITY SMARTFORCE Scheduler, you and your team have the actionable insights you need to protect staff well-being, patient outcomes and the bottom line.

ADVANTAGES FOR YOUR ORGANIZATION:

Turn labor and scheduling data into action

This predictive analytics tool processes complex data based on your parameters and provides dashboards that can be comprehended at a glance. Your team has the power to take preemptive action and improve outcomes.

Enable accountability

Deliver filtered views to your team so everyone has the exact information they need. Front-line employees can track their own staffing and attendance metrics, managers can make data-driven decisions that elevate results in their unit, and executives have the insights they need to measure the organization's performance against corporate goals.

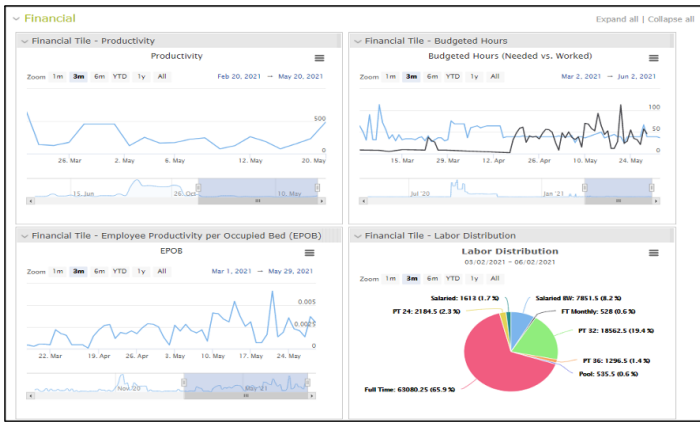

Manage turnover risk

By tracking and analyzing data related to attendance, overtime and PTO, ABILITY SMARTFORCE Staffing Insights uses your defined criteria to identify employees who are at risk of burnout and turnover.

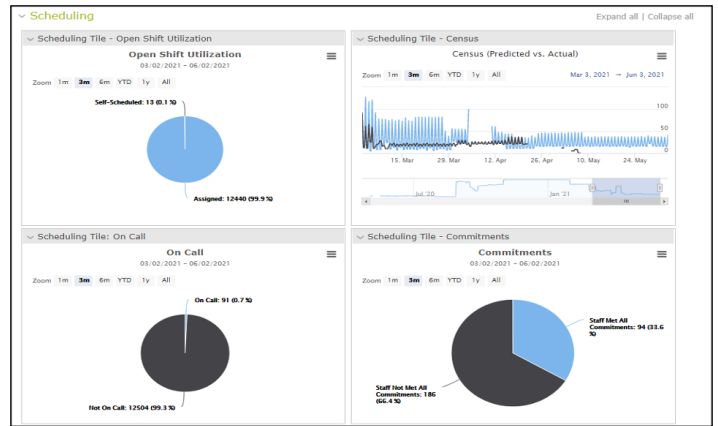

Boost productivity

Easy-to-read dashboards help you manage staff commitments, oversee budgeted hours and labor distribution and address low productivity levels.

Your leadership team has quick access to the financial metrics they need to better manage your most valuable asset – your workforce.

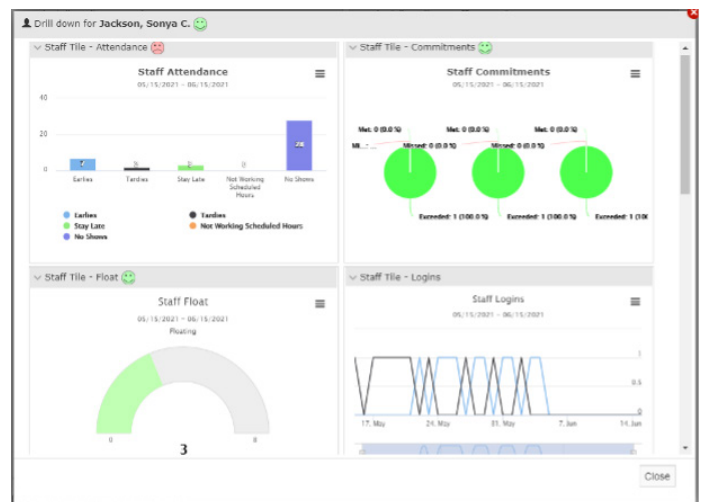

ABILITY SMARTFORCE Staffing Insights provides your team with the predictive analytics they need to make smarter staff scheduling decisions.

Staff

Default View (Detail) Overview View

Job Type	🔴 Staff	🟡 Staff	🟢 Staff
2nd Team Lead		Erbiv, Laporchia Proverbs, Gail Wentzky, Kayla	
Clin Counselor		Wynne, Diane	Johnson, Whitney
