- Updated description of following HCPCS/PT code(Effective 04/01/2022)

A2004 XCELLISTEM, 1 MG

Installing the upgrade

Perform a full PC-ACE database backup before installing the upgrade. To install the upgrade, run the attached PCACEUP.EXE file using Windows Explorer or equivalent and follow the simple upgrade wizard steps. When prompted, enter the upgrade password provided by your software supplier. For networked instructions, it is recommended (but not required) that the update be run from the server's console.

IMPORTANT: The recommended database backup is for safety purposes only and should NOT be restored after successfully installing the update. The update program preserves all existing claims and reference file settings
